

The diagram shows a rectangular area representing an A6 paper layout. It is bounded by three concentric dashed lines: a pink line on the outside, a green line in the middle, and an orange line on the inside. The text explains the purpose of each line: the pink line is the trim size, the green line is the bleed area, and the orange line is the safe zone.

Pink = Trim size (A6 = 148mm x 105mm)

Green = Bleed area - Any images or colour meeting the 'trim' (edge of the page) need to exceed by 3mm on all edges to meet the green line

Orange = Safe Zone - Keep any important stuff such as text inside here
